

# EASYWRITER

## FLEXIBLE REPORTING FOR C•CURE 9000

Makes Using C•Cure 9000 Data Easy

- Create reports with just a few clicks
- No need to reformat to export data to Excel
- Non-technical users can create their own reports
- No need to know the C•Cure database structure or how to write SQL queries
- Easily modify reports

Provide your organization with *actionable* information

*Save time, money, and improve your overall security*

### FEATURES AND BENEFITS

- Save time and money
- Staff more productive
- Improve security and streamlines audits
- Reoccurring reports much less tedious
- Accessible to wide range of users
- Intuitive user interface
- Microsoft SQL database and reporting
- Leverage existing servers
- Reports run from Internet Explorer.
- BIRS compatible
- Automatically run reports and send by e-mail
- Restrict access to users and groups

## OPTIONAL CUSTOM REPORTS

Because EasyWriter has been designed with customization in mind, complex reports you need can be provided by your technical staff or FIS Professional Services. We have assisted customers streamline their operations in:

- Compliance and Auditing
- Facility Utilization
- Alarm Response
- Time and Attendance

By building on our experience with other clients, and working with you to refine your business requirements, we can quickly deliver the best possible solution for *your* situation.

## FREQUENTLY ASKED QUESTIONS

### 1. How is EasyWriter licensed? Supported?

Pricing is based on the C•Cure model. Each license covers one system serial number. One year of support is included and a support contract can be purchased after the warranty period.

### 2. Is it compatible with future version of the 9000 and new panels?

The product price includes one year of support and updates. Updates are available after the first year for a fee.

### 3. Can I use it with BIRS?

Both EasyWriter and BIRS use SSRS. EasyWriter can be easily added and the reports can reside, and run on the same SSRS server.

### 4. Which platforms are supported?

SQL Server 2012 or higher on any Microsoft operating system compatible with that SQL Server version. The EasyWriter and Microsoft Report Builder software run on Windows 7 or higher.

**Facility Information Systems** has been serving C•CURE customers and integrators since 1996. FIS has extensive real-world network and IT design/installation experience for major users within industry, government, education, aviation, medical, and financial fields. We are staffed by former Software House engineers and technical specialists and take pride in getting things right the first time.
